Water Right Application for _____
Number of additional irrigation acres

additional Water Rights (irrigation acres)
Accepted until December 31, 2021

Owner/Purchaser of the above land hereinafter known as the land, do hereby request the Lethbridge Northern Irrigation District (hereinafter referred to as "LNID") to arrange for additional Water Rights (irrigation acres) subject to LNID Policy.

1) I understand that the above noted additional Water Rights (irrigation acres) will be determined in accordance with LNID Policy and I will be assessed at the current Water Right charge of \$2,500.00 per acre plus GST.

I also understand that once the additional Water Rights (irrigation acres) are determined in accordance with LNID Policy and if they are more than those approximated above, I will be assessed an additional Water Right charge at the rate per acre plus GST in excess of those acres noted above.

2) If the application is approved by the LNID, the landowner will be notified by letter of any conditions, which will include a 50% water right deposit due the date specified in the approval letter. The balance of the Water Right assessment plus GST will be due December 31st of the year the irrigation acres are added to the Assessment Roll.

3) I understand that if my point of delivery is from a pipeline or a canal with a maintenance surcharge, I will be assessed construction contributions and I must sign an Agreement to Pay Cost for the amount of the construction contributions.

4) I understand and agree that I am responsible for all construction costs and any necessary changes to my infrastructure, in order to add the additional Water Rights (irrigation acres) to the above land. I also agree that all changes must be to LNID standards, and that I may be required to sign an Agreement to Pay Cost for any materials, construction, engineering, system design review, inspections and right of way costs.

5) I understand and accept that I will be assessed penalties in accordance with the LNID Penalty By-Law for imposing penalties for any arrears of rates and applicable GST assessments not paid in full by the dates specified in the signed Agreement to Pay Cost.

6) I understand and accept that in applying for the above additional Water Rights (irrigation acres) to be added to the land recognized in this application, **that this will form part of the 310.0 maximum total expansion acres** allotted per landowner, as set by the LNID Board of Directors.

7) I understand that my 50% Water Right deposit and construction contribution will be refunded if for whatever reason the LNID decides that it cannot grant this request for additional Water Rights.

I do hereby state that by signing this Application I fully understand and agree to the above noted conditions.
